

Office of the Sark Electricity Price Control Commissioner

## **Notice**

**Wednesday, 2<sup>nd</sup> May, 2018**

I published my proposed determination on electricity prices on Sark on the 14<sup>th</sup> March, 2018. You may recall that I had reached the preliminary conclusion that the current basic tariff of 66p/kWh, and prices for larger customers, are not fair and reasonable. I requested comments from interested parties by 29<sup>th</sup> March and then extended the period to 12<sup>th</sup> April and, subsequently, 30<sup>th</sup> April, following requests from Collas–Crill, who act for Sark Electricity Limited (SEL), who sought further information. I have now received a long and detailed submission from Collas-Crill, requesting me to withdraw my proposed Determination. I am studying this submission and intend to announce my decision shortly.

Anthony White

Commissioner
